| | Community Health Workers Response: Highlighting the unique role of community health workers deployed by Africa CDC in responding effectively to cholera outbreaks, featuring experiences from Zambia, Malawi, and Zimbabwe | Dr. Lul Pout Riek - Africa CDC Ethiopia | |
| | Discussion Session | ALL | |
| | Plenary Session: Using imperfect tests as surveillance tool | s to guide cholera response | |
| | Impact of decentralizing reference laboratory testing capacity for cholera on increasing the sensitivity of surveillance systems: The role of Public Health laboratories | Jucunu Chitio – INS Microbiology National Reference Laboratory Mozambique | Nadia Wauquier - WHO/GTFCC Switzerland |
| 15:00-16:30 | The Power of Science: Leveraging genomic sequencing to eliminate cholera, showcasing the significant role of science in this effort | TBC - Africa CDC Ethiopia | |
| | Surveillance Guidance and Testing Strategy - GTFCC | Maryann Turnsek – CDC Atlanta USA | |
| | Discussion Session | ALL | |
| 17:00 | Cocktail | ALL | NA |

FIRST CONFERENCE ON TRANSDISCIPLINARITY FOR THE ELIMINATION OF CHOLERA

Conference Agenda

29th and 30th of July

| Time | | | |
|--------------------------|--|--|---|
| | Day 2 - Activity /Topic | Speaker | Moderator |
| 08:00-08:25 | Arrival of Participants | Protocol | Protocol |
| | Plenary Session: OCV implementation exp | periences | |
| 08:30-10:00 | Integration of oral cholera vaccination into routine vaccination schedules as a palliative tool to stop the epidemic in areas of high endemicity. | Leonildo Nhampossa – EPI MoH Mozambique | Lucy Breakwell – CDC Atlanta USA |
| | Local Manufacturing Capabilities: Africa CDC's efforts to bolster local manufacturing capabilities in the realm of vaccines, therapeutics, and diagnostics, ensuring self-sufficiency and resilience | Dr.Raji Tajudeen – Africa CDC Ethiopia | |
| | Potential vaccine distribution strategies to optimize cholera vaccination coverage in hard-to-reach populations and during humanitarian emergencies. | Benício Andrade and Esselina Brito - Village Reach Mozambqiue | |
| | Discussion Session | ALL | |
| 10:00-10:30 | Coffee break and photograph | nic exhibition | |
| | Parallel Session: Transdisciplinary, Innovative, and Integrated Strateg | ies in Cholera Prevention and | Control |
| 10:30-12:00 | "Winning alliances: Success narratives in coordinated outbreak responses, the role of the Multisectoral Technical Group" | Placide Welo - DRC PNECHOL- MD Congo | Tonia Thompson – GTFCC CSP UK |
| | Cross-border responses - Examples of success in global partnerships – Multi- centred studies and research consortia | Flavio Finger – MSF Epicentre France | |
| | Comparison of analysis methods to classify cholera hotspots in Ethiopia from 2015 to 2021 | Bertrand Sudre - UNICEF Ethiopia | |
| | Discussion Session | ALL | |
| | Parallel Session: Water, Hygiene and Sanitation, classic | cholera prevention tools | |
| | Effectiveness of improving access to drinking water in controlling and preventing cholera outbreaks | Edgar Jone – Solidar Suisse Mozambique | Lenay Blason - UNICE Mozambique |
| 10:30-12:00 | Strategies to improve the distribution and use of water, sanitation, and hygiene interventions | Danielle Lantagne - TUFS USA Manuela Sitoi de Abreu – DNAAS, | |
| | Presenting the WASH costing tool, a methodology to develop costed WASH operational plan in priority areas within cholera hotspots Discussion Session | Jean Christophe – UNICEF and Maimuna Luis - MoH Mozambique | |
| Parallel Ses | ssion: Strengthening surveillance, prevention and response in an era | | umanitarian crises |
| | The global trends of climate and humanitarian crisis on cholera transmission | TBC – WHO Afro | Rogers Hansine - UEN Mozambique |
| 12:00-13:30 | Risks and vulnerabilities to cholera, and how this evidence can support the response to events and crisis | Bernardino Bernardo - UP Mozambique | |
| | Vulnerabilities and adaptation of health systems towards resilience infrastructure in the context of cholera and climate change | TBC – WHO Geneva | |
| | | | |
| | Discussion Session | ALL | |
| | Discussion Session Parallel Session: Case Management and Strategies to Reduce C | | |
| | | Cholera Morbidity and Mortality Beverly Laher - KUHS Malawi | |
| 12:00-13:30 | Beyond Symptoms: Integrated and innovative community approaches to cholera case management The impact of combined strategies for Case Management – ORP, CTUs and CTCs Clinical readiness of HCs in cholera critical areas for adequate case management: | Beverly Laher - KUHS Malawi Iza Cigleneki – MSF Switzerland | Magid Sabune – Provincial Health Directorate Cabo |
| 12:00-13:30 | Beyond Symptoms: Integrated and innovative community approaches to cholera case management The impact of combined strategies for Case Management – ORP, CTUs and CTCs Clinical readiness of HCs in cholera critical areas for adequate case management: opportunity to reduce underreporting of cases. Health Workforce Preparedness: Preparing the continent for the next pan- | Beverly Laher - KUHS Malawi Iza Cigleneki – MSF Switzerland Faquir Calú – WHO Mozambique IMerawi Aragaw – Africa | Magid Sabune – Provincial Health Directorate Cabo |
| 12:00-13:30 | Parallel Session: Case Management and Strategies to Reduce C Beyond Symptoms: Integrated and innovative community approaches to cholera case management The impact of combined strategies for Case Management – ORP, CTUs and CTCs Clinical readiness of HCs in cholera critical areas for adequate case management: opportunity to reduce underreporting of cases. Health Workforce Preparedness: Preparing the continent for the next pandemic through a robust health workforce | Beverly Laher - KUHS Malawi Iza Cigleneki – MSF Switzerland Faquir Calú – WHO Mozambique IMerawi Aragaw – Africa CDC Ethiopia | |
| | Beyond Symptoms: Integrated and innovative community approaches to cholera case management The impact of combined strategies for Case Management – ORP, CTUs and CTCs Clinical readiness of HCs in cholera critical areas for adequate case management: opportunity to reduce underreporting of cases. Health Workforce Preparedness: Preparing the continent for the next pan- | Beverly Laher - KUHS Malawi Iza Cigleneki – MSF Switzerland Faquir Calú – WHO Mozambique IMerawi Aragaw – Africa | Magid Sabune – Provincial Health Directorate Cabo |
| | Parallel Session: Case Management and Strategies to Reduce C Beyond Symptoms: Integrated and innovative community approaches to cholera case management The impact of combined strategies for Case Management – ORP, CTUs and CTCs Clinical readiness of HCs in cholera critical areas for adequate case management: opportunity to reduce underreporting of cases. Health Workforce Preparedness: Preparing the continent for the next pandemic through a robust health workforce Discussion Session | Beverly Laher - KUHS Malawi Iza Cigleneki – MSF Switzerland Faquir Calú – WHO Mozambique IMerawi Aragaw – Africa CDC Ethiopia ALL | Magid Sabune – Provincial Health Directorate Cabo Delgado Mozambio |
| | Parallel Session: Case Management and Strategies to Reduce C Beyond Symptoms: Integrated and innovative community approaches to cholera case management The impact of combined strategies for Case Management – ORP, CTUs and CTCs Clinical readiness of HCs in cholera critical areas for adequate case management: opportunity to reduce underreporting of cases. Health Workforce Preparedness: Preparing the continent for the next pandemic through a robust health workforce Discussion Session Lunch break | Beverly Laher - KUHS Malawi Iza Cigleneki – MSF Switzerland Faquir Calú – WHO Mozambique IMerawi Aragaw – Africa CDC Ethiopia ALL | Magid Sabune – Provincial Health Directorate Cabo Delgado Mozambio |
| 12:00-13:30 13:30-14:30 | Beyond Symptoms: Integrated and innovative community approaches to cholera case management The impact of combined strategies for Case Management – ORP, CTUs and CTCs Clinical readiness of HCs in cholera critical areas for adequate case management: opportunity to reduce underreporting of cases. Health Workforce Preparedness: Preparing the continent for the next pandemic through a robust health workforce Discussion Session Lunch break Parallel Session: Turning Crises into Opportunities: A New Era in Control Plan from a regional country support platform perspective - Zambia, Malawi and Mozambique How structural changes inspired by the National Cholera Control Plan (NCP) shape the future of cholera control | Beverly Laher - KUHS Malawi Iza Cigleneki - MSF Switzerland Faquir Calú - WHO Mozambique IMerawi Aragaw - Africa CDC Ethiopia ALL ombating Cholera in Mozambi Joseph Adive Serike - Regional CSP GTFCC Nyuma Mbewe, ZNPHI Zambia | Magid Sabune – Provincial Health Directorate Cabo Delgado Mozambio |
| 13:30-14:30 | Parallel Session: Case Management and Strategies to Reduce C Beyond Symptoms: Integrated and innovative community approaches to cholera case management The impact of combined strategies for Case Management – ORP, CTUs and CTCs Clinical readiness of HCs in cholera critical areas for adequate case management: opportunity to reduce underreporting of cases. Health Workforce Preparedness: Preparing the continent for the next pandemic through a robust health workforce Discussion Session Lunch break Parallel Session: Turning Crises into Opportunities: A New Era in Control Plan from a regional country support platform perspective - Zambia, Malawi and Mozambique How structural changes inspired by the National Cholera Control Plan (NCP) | Beverly Laher - KUHS Malawi Iza Cigleneki - MSF Switzerland Faquir Calú - WHO Mozambique IMerawi Aragaw - Africa CDC Ethiopia ALL ombating Cholera in Mozambi Joseph Adive Serike - Regional CSP GTFCC Nyuma Mbewe, ZNPHI | Magid Sabune – Provincial Health Directorate Cabo Delgado Mozambio |
| 13:30-14:30 | Parallel Session: Case Management and Strategies to Reduce C Beyond Symptoms: Integrated and innovative community approaches to cholera case management The impact of combined strategies for Case Management – ORP, CTUs and CTCs Clinical readiness of HCs in cholera critical areas for adequate case management: opportunity to reduce underreporting of cases. Health Workforce Preparedness: Preparing the continent for the next pandemic through a robust health workforce Discussion Session Lunch break Parallel Session: Turning Crises into Opportunities: A New Era in C The implementation of the National Cholera Control Plan from a regional country support platform perspective - Zambia, Malawi and Mozambique How structural changes inspired by the National Cholera Control Plan (NCP) shape the future of cholera control The Legacy of COVID-19 and other infectious disease epidemics: Capitalizing on Public Health Investments for the Future | Beverly Laher - KUHS Malawi Iza Cigleneki – MSF Switzerland Faquir Calú – WHO Mozambique IMerawi Aragaw – Africa CDC Ethiopia ALL ombating Cholera in Mozambi Joseph Adive Serike – Regional CSP GTFCC Nyuma Mbewe, ZNPHI Zambia TBC - WaterAid Mozambique ALL | Magid Sabune – Provincial Health Directorate Cabo Delgado Mozambiq que TBC - WHO |
| 13:30-14:30 | Parallel Session: Case Management and Strategies to Reduce C Beyond Symptoms: Integrated and innovative community approaches to cholera case management The impact of combined strategies for Case Management – ORP, CTUs and CTCs Clinical readiness of HCs in cholera critical areas for adequate case management: opportunity to reduce underreporting of cases. Health Workforce Preparedness: Preparing the continent for the next pandemic through a robust health workforce Discussion Session Lunch break Parallel Session: Turning Crises into Opportunities: A New Era in C The implementation of the National Cholera Control Plan from a regional country support platform perspective - Zambia, Malawi and Mozambique How structural changes inspired by the National Cholera Control Plan (NCP) shape the future of cholera control The Legacy of COVID-19 and other infectious disease epidemics: Capitalizing on Public Health Investments for the Future Discussion Session | Beverly Laher - KUHS Malawi Iza Cigleneki - MSF Switzerland Faquir Calú - WHO Mozambique IMerawi Aragaw - Africa CDC Ethiopia ALL ombating Cholera in Mozambi Joseph Adive Serike - Regional CSP GTFCC Nyuma Mbewe, ZNPHI Zambia TBC - WaterAid Mozambique ALL d Disinformation - Anthropological | Magid Sabune – Provincial Health Directorate Cabo Delgado Mozambio TBC - WHO |
